Scale and rust deposit remover  
for household appliances

## Use

For removing scale and rust deposits in household appliances. For different types of coffee machines, household dishwashers and washing machines, for instance.

- Effectively removes and softens scale deposits that can prevent the machine from working properly.
- Safe for the user and materials
- The liquid removed is easy to dose and use.

## Dosage

Coffee machine 0.5 dl / 5 dl of water in the water reservoir. Water is strained twice, have an approx. 3 min break in between. After washing, the machine is rinsed by brewing two full tanks of water through the water reservoir.

Dishwasher 1 dl, when the dishwasher is full of water. Washing machine 2.5 dl into the washing detergent compartment with a normal washing program. After descaling a dishwasher or washing machine, a neutralizing wash with regular washing detergent is required.

Do not boil water when descaling an electric kettle as water may boil over. Avoid using undiluted product on hot surfaces. See manufacturer recommendations.

## Product numbers, package sizes and EAN

15782673 500 ml 6414505081626
