

LV

Aurinkovoide SPF 30 Sun Cream

For sensitive skin
Very water resistant

Fragrance and colourant-free LV Sun Cream is an easy-to-apply, non-greasy, high-SPF sunscreen for the face and the body. The sun cream moisturises and cares for sensitive skin while providing excellent protection against UVA and UVB radiation. Extremely water-resistant consistency. LV Sun Cream comes in SPF30 and SPF50.

Instructions of use

Apply the sun lotion / sun spray generously (a handful) on face and body before sun exposure. Reapply frequently especially after swimming, sweating or drying with towel. It's important to use the recommended amount for optimal sun protection. Avoid to stay in the sun in the middle of the day, as the sun's rays are strongest at that time. The most effective protection against the sun's rays is to stay in the shade or wearing clothes. Sun products may stain fabrics and other surfaces. Allow the product to fully absorb into the skin before contact with these.

Packaging and environment

The packaging material of the tube is PE-HD / PE-LD plastic and the closure is PP plastic. The tubes and closures are suitable for plastic recycling separately. The packaging board is sorted for cardboard collection.

Shelf life and best before

Shelf life 3 years after manufacture unopened, 12 months if opened.

Country of origin

Denmark
